EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Alfred A. Stadnicki on 23 November 2005.

The application has been amended as follows:

In the abstract:

In line 11, "succored" has been changed to --secured--.

In the specification:

In page 9, line 20, "succored" has been changed to --secured--.

In the claims:

In claim 1, line 9, "cavitye" has been changed to --cavity--. In line 14, "succoring" has been changed to --securing--.

In claim 2, line 3, "at least" has been changed to --at least--.

The following changes to the drawings have been approved by the examiner and agreed upon by applicant:

In the drawings, the drawings

Art Unit: 3733

shall received a *prior art* label, as they were disclosed in the background section of the specification, showing that they are previously known and used in the art.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The claims in the instant application have not been rejected using prior art because no references, or reasonable combination thereof, could be found which disclose, or suggest, a method of setting a fractured bone using an intramedullary nail having a first hole and a second hole, including the steps set for in claim 1, specifically the steps of removing a bone fragment from a proximal area of a fractured bone to expose the first hole of the inserted intramedullary nail and the step of securing the removed bone fragment to the proximal area of the fractured bone from which the bone fragment was removed, after insertion of a proximal locking screw.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Please see additional references on PTO-892.
